THE RETREAT

We propose that your vacation investment is benefited from these activities:

Morning Sadhanas: we know for a fact that if you do not take care of yourself at all the levels of the bodies of human being you will not have a clear of mind, a rebalanced energy or just a way to awake yourself.

Master Class: these are designed by one or two teachers in order to share unique knowledge that can give to the other participants of the BeTantric Summer Camp a plus with their practice. We believe that a masterclass brings the perfect way to be trained but at the same time to enjoy the time with us.

Experiences: without the rigor of a class we will deliver a wonderful experience within tantra from massages, rituals, yoga, meditation, or breathwork, a life living workshops with the target to feel, sense and perceive the unique way that tantra is !!!

Night Laboratories: Tantra as a universal discipline can deliver to us a range of different experiences. These are thought in order that the teacher or teachers can develop and explore some radical or new to the field. And of course that can bring a new knowledge, experience or transformation.

La Lobera, has a singular aspect. Located at the Sierra de Gredos, allows that event is hot we have the winds of the Sierra to refresh us. It is localized at a unique set, there are mother stones of the size of 5 stories buildings (celto-iberic ritual places) the energy that brings to the experience is amazing since you have the benefit of electromagnetically and pulsing mother earth energy. It has its own river, a swimming pool, wonderful trees and natural areas to get lost, and a geodesic work area in the middle of the natura. Therefore, do not expect that we will be all the time in a close environment !

THE
