ALCHEMY OF SACRED SEXUALITY

Presentation

Working for more than 19 years in Tantra, Yoga, Sacred Sexuality and healing therapies with men of different backgrounds had shown to us that there is a need to work with manhood from a different perspective than the one that is being carried on. The last 7 years we have also share not only experiences but training in tensesgenetic shamanism, which nos I believe is the correct time to share the combination of two amazing technologies Tantra & Shamanism. We are in a connected society that had needs that can bring a deep understanding of the Sexuality , the psycho energy and emotions; and how we can transform patterns or blockages that we could have.

A transpersonal approximation that can respond to the current behavior and expectations of the men of the 21st century. In the last 6 years, we had studied, investigated, developed & applied an intense learning-experience for men in our Summer Camps. We celebrated more than 17 years doing these series of Summer Camps for men. The last 5 years we had the opportunity to do a male continuous program in Europe, Latin America & South Africa. This year, we introduce to you a whole life living training that will cover a multi-dimensional approach about the man 's sacred sexuality.

The power of the alchemy of Sacred Sexuality between men and how they interrelate with Tantra and Shamanism.

ALCHEMY OF SACRED SEXUALITY

Costa Blanca Explore

An energetic paradise to learn and explore Tantra in Nature....

:: A VENUE WHERE TRANSFORMATION HAPPENS ::

Our enclosure has two main buildings within a closed estate of 150,000m² and where they will be divided into two types of accommodation. In the main building you will find 62 double rooms with private bathrooms and 9 multiple rooms with bunk beds and shared bathrooms differentiated by sex and with capacity for 105 people.

Here is also the main dining room and another smaller one for small groups. Also meeting and multipurpose rooms, chapels and a 265m² assembly hall equipped with the most modern technology.

Our landscaped exteriors are characterized by the lush pine forest characteristic of this area of Guardamar del Segura and its sports facilities such as an indoor soccer court, basketball, mini-basketball, racquetball, paddle tennis and a magnificent swimming pool equipped with hydromassage technology.

Guardamar del Segura is a municipality located in the south of the Valencian Community, in the Costa Blanca area and 25 km south of the Alicante International Airport, being a national and international tourist destination chosen by many.

Its main attraction is its 11 kilometers of golden sand beaches that, together with the pine forest, form a beautiful natural park. On Center beach you will find the Paseo Marítimo, full of restaurants and shops where you can enjoy Mediterranean cuisine and life.

Next to the mouth of the Segura River are the Fishing Market and the Guardamar Marina. From here, you will often be able to spot some of the birds that hover over the Costa Blanca area, thanks also to the nearby salt flats that turn the place into a sanctuary for many migratory birds.
